PROFESSIONAL SUMMARY

Results-driven Fullstack Developer with 5+ years of expertise in building scalable web and mobile applications and also implementing automation solutions. Combines strong technical acumen with excellent problem-solving abilities to deliver high- performance digital products. Leverages engineering background to approach software development with analytical precision and creative innovation.

PROFESSIONAL EXPERIENCE

Freelancing
Self-employed | June 2025– till date
- I have connected with different clients via upwork, fiverr, linkedin and individual referrals and have worked on their projects. I made sure I was able to deliver optimised working projects to serve millions of users without breaking in production.
- You can see those projects in my portfolio link above

Mobile App Developer
NeoCloud | April 2024 – May 2025
- Developed cross-platform mobile applications using React Native for iOS and Android ecosystems
- Implemented Nodejs-based backend systems with RESTful API architecture
- Engineered secure authentication protocols and user management systems
- Optimized application performance across diverse device specifications

AI Automation Developer
Blaze Tech Industry | Dec 2023 – Mar 2024
- Architected end-to-end workflow automation solutions using n8n, reducing manual processes by 40%
- Engineered custom API integrations between enterprise systems, enhancing cross-platform data flow
- Developed automated data processing pipelines that accelerated reporting time by 60%
- Implemented intelligent automation protocols for critical business processes, eliminating error rates by 85%
- Collaborated with cross-functional teams to identify and implement strategic automation opportunities

Full-Stack Developer
Threndin Community | Mar 2023 – Nov 2023
- Engineered responsive web applications using React and Next.js frontend with Django backend integration

- **Designed and implemented RESTful APIs supporting 10,000+ daily active users across web and mobile platforms**
- **Optimized database models and queries using Django ORM, improving application performance by 35%**
- **Led UI/UX enhancement initiatives, increasing user engagement metrics by 28%**
- **Executed WordPress customizations for enterprise clients, delivering solutions on-time and within scope**

Senior Frontend Developer
LEAD Software Community | Jan 2021 – Feb 2023
- **Spearheaded development of mission-critical web applications utilizing React and Next.js**
- **Integrated complex backend services via Django and REST APIs, ensuring seamless data flow**
- **Mentored 5 junior developers, establishing coding standards and best practices**
- **Reduced application load time by 42% through performance optimization techniques**

Junior Developer
Leads | Jan 2019 – Dec 2021
- **Developed responsive web components for multiple client projects using React, HTML, and CSS**
- **Maintained and enhanced e-commerce platforms serving 5,000+ monthly customers**
- **Collaborated with backend team to optimize API utilization and data management protocols**

Web Development Intern
Leads | Jan 2018 – Dec 2018
- **Constructed a fully-functional e-commerce website leveraging React and JavaScript**
- **Contributed to debugging and optimization efforts across multiple production applications**
- **Gained proficiency in agile development methodologies and project management workflows**

-

EDUCATION
Bachelor of Engineering, Electrical Engineering
Nnamdi Azikiwe University, Anambra State
Expected Graduation: 2025

TECHNICAL PROFICIENCIES
Frontend: Reactjs, Next.js, JavaScript, HTML5, CSS3, Bootstrap, TailwindCSS, Typescript

Backend: Nodejs, Python, RESTful API Development

Mobile: React Native, flutterflow, Expo

Automation: n8n, Workflow Design

CMS: WordPress, Content Architecture

Development Tools: Git, GitHub, Figma, Adobe XD, Canva, Postman

Database: SQL, Django ORM, Prisma, Postgresql

BAAS: Supabase

KEY PROJECTS
Investment Platform & Custom Wallet (Fortrexo)
- **Engineered comprehensive investment platform with integrated custom wallet functionality**
- **Implemented secure transaction processing and financial data management systems**

- **Designed intuitive user interface resulting in 40% higher engagement than industry average**

Enterprise E-commerce Platform (Leads)
- **Engineered comprehensive e-commerce solution with secure payment gateway integration**
- **Implemented robust user authentication and personalized product recommendation system**
- **Designed scalable architecture supporting 1,000+ concurrent users**

Community Engagement Forum (Threndin Community)
- **Architected dynamic community platform utilizing Next.js and Django technology stack**
- **Optimized performance metrics resulting in 99.8% uptime and sub-second page load times**
- **Implemented advanced search functionality and content management systems**

PROFESSIONAL INTERESTS
- **Emerging web technologies and framework advancements**
- **Fintech solutions and secure payment systems**
- **Open-source contribution and community development**
- **Full-stack integration methodologies and architectural patterns**
- **AI-driven automation solutions and workflow optimization**
